

# Norgren Automation Solutions Collaborative Robot Kit

*Easily Reconfigurable*

*Versatile System*

*A complete tool  
in a box!*

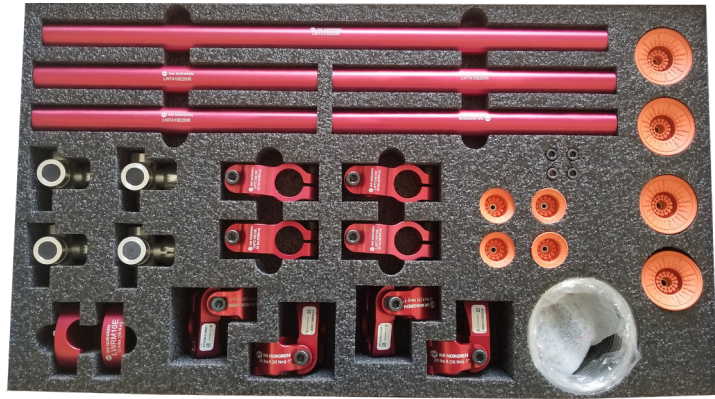

# Application info

Norgren Automation Solutions introduces its new Collaborative Robot Kit: an all-in-one End of Arm Tool designed to support any Collaborative Robot.

The Norgren Cobot Kit is a user-friendly and versatile system, meaning you can easily adjust or reconfigure your kit for a multitude of parts or applications to meet your business's needs.

Configure your Cobot system via the product selectors below or by contacting your material handling experts at 800.272.4511!

Note: both cups shown for full visibility
